Experience must have shown that it is not at all possible to carry out the works under the P.W.D. scheme & the R.W. Supply scheme without adequate Dist. & Sec'y supervision. When the P.W.D. obtained the work especially was pressed, reflecting from the Sanitary Inspectors, it was feared that it would not be very long before the necessity for removing the Dr. Inspectors would be strongly felt. Such time has now arrived & we must meet the demand. Dr II may be consulted as proposed.

Large sums have been set apart in each district aggregating to Rs.3 lakhs for the whole State for the execution of works under the Village Improvement Scheme and the sinking of drinking water wells in rural parts. The only staff at present available for supervising these works are the Sanitary Inspectors employed by the District Boards.

2. At the last Dasara meeting the Deputy Commissioners of Bangalore, Shimoga and some other districts urged the need for additional supervising establishment as the existing staff has not been able to cope with the extra work in addition to their own. The Deputy Commissioner of Tumkur now solicits sanction to entertain temporary Work-Inspectors on Rs.25 plus Rs.10 each for each taluk and an Overseer on Rs.60 to supervise the work of these Work Inspectors.

Proper under disposal.

3. The Chief Engineer considers that the additional staff asked for is necessary for the prompt execution of works. The Second Member is also in favour of a temporary staff being provided on the scale of 1 Work Inspector for each taluk or Sub-Taluk till the local people are sufficiently trained for supervising these works. The Financial Department has no objection to the employment of additional staff absolutely necessary, so long as the cost is met from the special grants for these schemes.

S i r,

I have the honor to state that Government in their order No. 5795-9/L.B.189-14-3 dated 27th January 1915 have been pleased to sanction a grant of Rs. 20,000/- from the State Funds to this District for the current year for the improvement of water supply in rural tracts. This amount is expected to be sup - plemented by a contribution of at least Rs. 10,000/- from the villagers in aid of these works. A sum of Rs. 10,000/- has also been sanctioned for the sinking of temporary wells and the deepening of the existing wells in places where water scarcity is felt during the present season of draught. Besides, a sum of Rs. 40,000/- (consisting of the Government grant of Rupees 20,000/- and the villagers' contribution of an equal amount) has got to be spent during the year under the Village Improve - ment Scheme. To work out this large allotment aggregating to Rs. 80,000/- as also the District Fund allotment of Rs. 18,915/- made in the current year's budget under B Public Works, the only staff now existing and available is that of 8 Sanitary and two Assistant Sanitary Inspectors maintained in the District at a total cost of Rs. 5280/- per annum which works out at 5.3 % of the allotment to be worked out by them.
